Range and balance of summative assessment conventions	Assessment	Present connections to places	Impacts of technology over time	
	Technique	Supervised assessment	Research	
	Type of text	Examination	Report	
	Mode	Written	Written	
Aspects of the achievement standard				
describe a person, site and/or event of significance in the local community and explain why places are important to people				
identify how and why the lives of people have changed over time while others have remained the same				
recognise that the world is divided into geographic divisions and that places can be described at different scales				
describe how people in different places are connected to each other and identify factors that influence these connections				
recognise that places have different meaning for different people and why the significant features of places should be preserved				
pose questions about the past and familiar and unfamiliar objects and places				
locate information from observations and from sources provided				
compare objects from the past and present and interpret information and data to identify a point of view and draw simple conclusions				
sequence familiar objects and events in order and sort and record data in tables, plans and on labelled maps				
reflect on their learning to suggest ways to care for places and sites of significance				
develop narratives about the past and communicate findings in a range of texts using language to describe direction, location and the passing of time				

Shaded cells indicate opportunities that summative assessments provide for students to demonstrate evidence against all aspects of the achievement standard
